PROFESSIONAL SUMMARY

Microsoft Dynamics 365 CE and Power Platform engineer at a certified Microsoft Partner, delivering enterprise CRM, integration, and automation for US and UK clients across nonprofit, public sector, healthcare, and financial services. Strong across the full delivery surface: C# plugins, PCF controls, and JavaScript on the Dynamics layer; model-driven, canvas, and custom-page Power Apps with 200+ Power Automate flows; and the Azure integration layer beneath, including Data Factory, Functions, and Dual Write between Dynamics 365 CE and Finance and Operations. Delivered a 94% pipeline performance gain on a multi-year audit data migration and an on-premises to Azure CRM migration with zero data-integrity issues. Microsoft Certified (PL-200), progressing on the Power Platform Developer and Azure tracks and toward AI-driven business solutions.

TECHNICAL SKILLS

Dynamics 365 CE: Sales, Customer Service, Plugins (C# / IPlugin), PCF Controls, JavaScript Web Resources, Business Rules, Ribbon Workbench, Dataverse, FetchXML, SSRS / RDL, Solution Lifecycle Management (ALM)

Power Platform: Power Apps (Model-driven, Canvas, Custom Pages), Power Automate, Power Pages, Power Fx, Dataverse connectors

Azure & Integration: Azure Data Factory, Azure Functions, Logic Apps, Azure SQL, Dual Write (CE / F&O), REST APIs, Webhooks, Azure DevOps, GitHub Actions CI/CD

Languages & Frameworks: C#, .NET (Core and Framework), ASP.NET Web API, JavaScript, Python, SQL, T-SQL

PROFESSIONAL EXPERIENCE

Software Engineer II, Devsinc (Microsoft Partner)

Jan 2025 to Present

Lahore, Pakistan | Progressed from Associate Software Engineer to Software Engineer I to Software Engineer II

- Sole developer on an enterprise nonprofit CRM programme across Sales, Customer Service, and cross-module workflows; resolved 110+ production ADO tickets at 99%+ first-pass client acceptance across multiple sprint cycles.
- Designed and maintained 200+ Power Automate flows spanning business-critical automation, multi-stage approval pipelines, and third-party integrations via Webhooks and REST APIs.
- Re-engineered Azure Data Factory pipelines with Python transformations to migrate 12+ years of audit records from Salesforce to Dynamics 365 CE for a UK financial services client, cutting per-batch processing from 32 seconds to 2 seconds, a 94% reduction.
- Implemented Dual Write between Dynamics 365 CE and Finance and Operations for real-time bidirectional CRM and ERP synchronisation with zero data loss across migrated records.
- Led an on-premises to Azure CRM migration for a US public-sector client: rebuilt ASP.NET portal integrations for cloud runtime and engineered a C# tool for real-time SQL Server data export; went live April 2026 with zero data-integrity issues across UAT.
- Built a Custom Page solution for a US healthcare client invoking Power Automate and external Webhooks to fetch and render third-party data inside Dynamics 365 CE; established GitHub Actions CI/CD that removed recurring deployment incidents.

Web Developer (Contract), Biology Circle

Jul 2024 to Jan 2025

Hybrid, Lahore

- Delivered a production academic journal platform on Open Journal Systems (PHP, MySQL) two weeks ahead of a three-month deadline, serving 500+ monthly researchers at 100% uptime.
- Drove a 40% increase in user engagement and a 30% reduction in submission-to-review cycle time through custom UI/UX and workflow optimisation.

EDUCATION

B.S. in Computer Science, University of Gujrat

2020 to 2024

CERTIFICATIONS & ACHIEVEMENTS

- Microsoft Certified: Power Platform Functional Consultant Associate (PL-200), valid through 2027.
- National Business Idea Competition: 1st place among 55+ universities (FAST-NUCES, 2024).
- Stanford / Coursera: Supervised Machine Learning. DeepLearning.AI: AI For Everyone.
